

SPOTLIGHT

Cafeteria and Health Reimbursement Account Sales Consultant

R.D. Drenkow & Co., Inc

Entire job description can be found on [PioneerLink](#) or at www.rddrenkow.com.

Salt Marsh Technician
US Fish and Wildlife Service

The US Fish and Wildlife Service is conducting an extensive salt marsh assessment project in 2009 and is looking for dedicated, responsible and self-motivated people to fill salt marsh technician positions.

Field tasks include: establishing assessment stations; measuring/surveying a variety of salt marsh habitat parameters including birds, vegetation, groundwater salinity and other parameters appropriate for assessing salt marsh integrity.

Application information can be found on [PioneerLink](#)

[Search for Common Ground](#)

At some point in your life, you've probably had a conflict - an argument with your parents, siblings, roommates, or others. Humans inherently have conflicting interests, but that doesn't mean that common ground can't be found. **Search for Common Ground** is a non-profit organization that "works to transform the way the world deals with conflict - away from adversarial approaches and towards collaborative problem solving.

Search for Common Ground currently has about a dozen jobs listed on their [Jobs page](#), although only a few of them will be of interest to new college grads. We recommend that you check out [Program Assistant - Sub-Saharan Africa](#) (Washington, DC), [Web and New Media Manager](#) (Washington, DC), and [Part-time Office Manager](#) (Brussels, Belgium). The experience requirements for these jobs are a little steeper than what we'd usually want to feature here, but we think that you should be able to sell Search for Common Ground on your readiness for the job if you have the right background. To apply, check out the instructions at the end of the job descriptions.

For more details and more opportunities visit [One Day One Job](#).

Recruiters on Campus

Tiny Circus

When: Tuesday, March 10
Where: CDO (1127 Park)
Time: 4:15pm

Carlos Ferguson '92 will be at the CDO to discuss a summer internship opportunity with his organization Tiny Circus, a new collaborative and community-based art project that uses stop-motion animation as a medium. Please join us to learn more.

Want to know your brain age? Click [here](#) and press start; wait for 3, 2, 1; memorize the numbers positions on the screen; then click the circle from the smallest number to the largest number. At the end of game, the computer will tell you the age of your brain. (The lower score is "better.")
