

Cost and Payment Worksheet for International Students

Please keep this for your records.

INSTRUCTIONS:

1. Calculate the full year institutional charges—tuition, room, board, fees, etc. (List under Total Expenses.)
2. Deduct from that figure the \$100 Advance Deposit and/or amounts you expect from other sources—scholarships, grants, loans, etc. (List under Total Credits.) Do not include work-study or campus employment eligibility, as it never appears as a credit on your billing statement.
