Chemical Spill

- If toxic chemicals come in contact with your skin, immediately flush the affected area with clear water.
- Call the Campus Safety and Security Department at extension 4600 (or 911).
- If there is any possible danger, evacuate your area.
- If requested, accompany and assist persons with disabilities who appear to need assistance.

Chemical Fire

- Remain calm.
- Call Campus Safety and Security at extension 4600 (or 911).
- If the fire is small and you have received training, attempt to put it out with a fire extinguisher or other available means. Do not jeopardize your personal safety.
- Never allow the fire to come between you and exit.
- Evacuate your area if you are unable to put out the fire. Close doors and windows behind you to confine the fire. Proceed to an exit.
- If requested, accompany and assist persons with disabilities who appear to need assistance.
- Do not break windows; oxygen feeds a fire.
- Do not attempt to save possessions at the risk of personal injury.
- Do not return to the emergency area until instructed to do so by campus security, police, or fire department personnel.
- All chemical spills and fires, no matter how small, should be reported to Campus Safety and Security at extension 4600.
- Planning includes training in proper use of fire extinguisher and their location.
