GUIDANCE FOR STUDENTS WITH COVID-19 SYMPTOMS OR EXPOSURE¹  
JANUARY 12, 2022 UPDATE

**Symptomatic**
- Call SHAW: 641-269-3230
  - After hours, call Campus Safety at 641-269-4600
  - Antigen Test
    - Negative
    - Molecular Test (PCR, LAMP)
      - Negative
      - Positive
        - Continue proper use of masks and hand hygiene, respiratory etiquette, resume classes as health permits, and dine to-go. SHAW will provide ongoing care and consultation.
        - Isolate²
          - Isolate for at least 5 full days, return after no fever (without fever-reducing medications) for the prior 24 hours, and symptoms improving.
          - Continue normal activities

**Asymptomatic and Exposed¹**
- Call SHAW: 641-269-3230
  - Not fully-vaccinated³ or have received a vaccine/booster exemption
    - Isolate for 5 full days, monitor symptoms, and Molecular Test day 5
      - Positive
      - Negative
        - Continue normal activities

**Fully-vaccinated³**
- Resume normal activities and monitor symptoms
  - Molecular Test day 5
    - Positive
    - Negative
      - Continue normal activities

¹ Exposure is when you have had close contact with a confirmed positive (within 6 feet for 15 minutes or more cumulative in a 24-hour period without a mask).
² The COVID Care Team will work with you to make isolation arrangements.
³ Fully-vaccinated means that you have received the recommended doses and boosters in the recommended timeframes. See CDC Vaccine guidance at <http://uqr.to/13rrd>.

Note: With the high communicability of Omicron, it may not be possible to isolate individuals in single rooms. If the case count is high, we will room students who are positive and symptomatic together.

Printed copies may become outdated, check <http://uqr.to/13rpq> for the most current information.
