Proposal:
Two New Teaching and Learning Centers

Media Production and
Viewing Lab

Social Inquiry Center

Multimedia Presentation Center, Hamilton College Library

Quantitative Analysis Center, Wesleyan University

Both= A Response to Changes in Pedagogy

- Active and Participatory Learning

- Use of Technology

Both Serve Introductory to MAP level

# Both Help Students Learn and Faculty Teach

Both Build on Existing Interests and Resources

Faculty

Student Interests

Courses

Technology

Organizational Clusters

Both Facilitate Teaching and Learning By

- Increasing Current Resources
- Spatial and Organizational Clustering

Knapp Media and Technology Center, Wellesley College Library

Data Resource Room, Kirner-Johnson Social Science Building, Hamilton College

The Media Lab

Goal: To support the pedagogies that rely on digital media

The Media Lab

Goal: To support the pedagogies that rely on digital media

(DVDs, CDs, digital art, iMovie, audio and video recorders, podcasts, etc.)

The Media Lab

We need a facility that brings together:

The Media Lab

We need a facility that brings together:

**Video and Audio
Collections**

The Media Lab

We need a facility that brings together:

**Video and Audio
Collections**

**Classroom Space for
Analyzing/Manipulating
Video and Audio**

The Media Lab

We need a facility that brings together:

Video and Audio Collections

Classroom Space for Analyzing/Manipulating Video and Audio

Production Space

The Media Lab

We need a facility that brings together:

Video and Audio Collections

Small group viewing*

Production Space

Classroom Space for Analyzing/Manipulating Video and Audio

and large group viewing

The Media Lab

We need a facility that brings together:

Small group viewing*

Classroom Space for
Analyzing/Manipulating
Video and Audio

Video and Audio
Collections

Production Space

The Media Lab
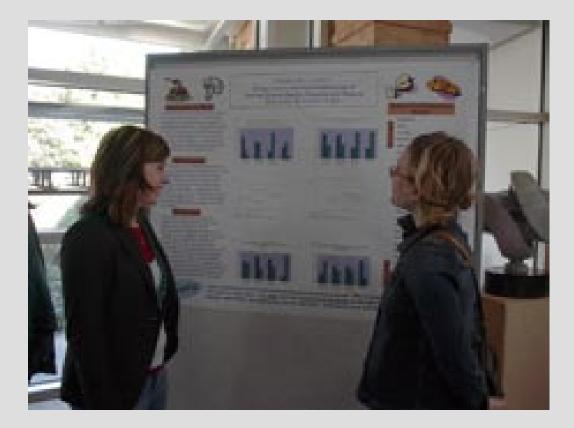

Benefits of such a facility:

The Media Lab

Benefits of such a facility:

- Recognizes and Supports the Pedagogies Developed since the Prior Campus Plan
- Creates Coherence Between Different Services Scattered Across Campus
- Responds to New Faculty/New Student Expectations for Digital Listening, Viewing and Production
- Puts Grinnell College on Par With Peer Schools

Social Inquiry Center

## Goal: To Increase Student Engagement in Research

Support for Faculty and Students Using:

- Quantitative
- Qualitative
- Spatial Data

For Students:

- Help with data collection and analysis.

-Workshops on analytic techniques and software.

-Help in research design and dissemination of surveys used in IRB-approved research projects.

- Experiential learning for student mentors.

For Faculty:

-Help locating and preparing data sets for use in class exercises.

-Classroom assistance and/or custom workshops for classes.

-Workshops and speakers to introduce faculty to new analytic techniques and theoretical approaches.

-Appropriate spaces for working with individuals or groups of students.

-Archiving & cataloguing data sets for reuse by others
